## THE IMPORTANCE OF THE OCEAN LA IMPORTANCIA DEL OC ANO.

The ocean is home to a wide variety of plants and animals. People rely on the ocean and the habitats it provides. If we want to continue to benefit from the ocean it is extremely important that we take care of it. El oc ano es el hogar de una amplia variedad de plantas y animales. Las personas dependen del oc ano y sus habitats. Si queremos seguir benefici ndonos del oc ano, es muy importante que lo cuidemos.

We are more connected to the ocean than you might think; Waste from our neighborhoods often travels to the ocean and creates pollution. This can harm the plants and animals that live there. Estamos conectados con el oc ano, m s de lo que te imaginas. Los desechos de nuestras comunidades a menudo llegan al oc ano y lo contaminan. Estos pueden causar da o a las plantas y animales que habitan en el.

Along with ensuring trash doesn't end up in the gutter, one way we can take care of the ocean is through Marine Protected Areas. MPA's are specific areas in the ocean that have rules to protect the sea life from threats. Protected Areas. MPA's are specific areas in the ocean that have rules to protect the sea life from threats. Junto con asegurarnos de que la basura no termine en los alcantarillos, una forma de cuidar el oc ano es a trav s de las  reas Marinas Protegidas (AMP). Estas son  reas espec ficas que tienen regulaciones para proteger el oc ano de diversas amenazas.
